

We are a leading paper recycler dedicated to offering you cost effective and efficient solutions for removing paper waste from your site. We also recycle cardboard and recycle plastic. No matter how big or small you are, we have the flexibility to deal with your waste paper, cardboard and plastic requirements.

We aim to provide you with the best commercial return by showing you which paper grades need to be segregated – this provides the opportunity of creating an additional revenue stream or at least reducing collection costs. We also aim to optimise your recycling and reduce (sometimes eliminating) waste going to landfill.

Our paper, cardboard and plastic waste service includes:

- Regular and reliable collection of waste paper, waste cardboard and plastic from your premises
- Flexibility to cope with the unforeseen (e.g. additional collection required etc)
- Ensuring maximum recycling of waste paper and cardboard
- Advising you to ensure your waste management procedures meet legislative requirements

- Advice on maximising commercial return through waste paper segregation
- Partnering with other waste management companies to implement total waste management solutions for your company
